Agents Course

A free course from beginner to expert

hf.co/learn/agents-course

In this free course, you will:

- 📖 Study AI Agents in **theory, design, and practice**
- 🧑‍🎓 Learn to **use established AI Agent libraries** such as [smolagents](#), [LangChain](#), and [LlamaIndex](#)
- 📁 **Share your agents** on the Hugging Face Hub and explore agents created by the community
- 🏆 **Participate in challenges** where you will evaluate your agents against other students'
- 🎓 **Earn two certificates of completion** by completing assignments

Agents Course

A free course from beginner to expert

hf.co/learn/agents-course

Three paths: choose your own adventure

Participate as an auditor

You can participate in all challenges and do assignments if you want, but you have no deadlines.

Earn a certificate of fundamentals

By completing the Unit 1.

Earn both a fundamentals and completion certificate

By completing Unit 1, a use case assignment, and the final challenge.

Recommended pace

This is just a recommendation you can follow the course at your own pace

	RECOMMENDED PACE	FINAL DEADLINE
